DETAILED ACTION

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: Figures 2A-4C;

Species B: Figures 4A;

Species C: Figure 5B;

Species D: Figures 6A-6C;

Species E: Figure 7;

Species F: Figure 8A;

Species G: Figure 9A;

Species H: Figure 9D;

Species I: Figure 10A;

Species J: Figure 11A;

Species K: Figure 12;

Species L: Figure 13;

Species M: Figure 16;

Species N: Figure 17A;

Species O: Figure 17B;

Species P: Figure 17C;

Species Q: Figure 18A;

Species R: Figure 19A;

Species S: Figure 20A;

Species T: Figure 20b.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Figures 1A-1D should be labeled as "Prior Art".

4. **Comments Intended to Advance Prosecution:**

Applicants are encouraged to review the breadth of the instant claims and to define patentable subject matter in the first instance.

Applicant should note that the examiner reserves the option of requiring restriction and/or election, in due course, pursuant to MPEP 821.03, MPEP 811, etc., based on applicants' response to this office action. The instant claims are directed to a spring per se.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas C. Butler whose telephone number is 703-308-2575. The examiner can normally be reached on m-f 5:30 am to 2pm.
